Books as Merchandise

THERE is scarcely another article of commerce in which the difference between cost and price is as great as it is with Books.

This is not because publishers demand large profits. Competition is too keen for that.

It is just because the expense of getting ready is so heavy. Authors, editors, typesetters and plate makers have to be provided for before the actual manufacture of the book begins.

Three new books out of four never earn enough to cover this preliminary investment. The fourth one must make up for the other failures, or Mr. Publisher comes to grief.

If the publisher could be sure that each book would have a profitable number of sales, he could cut his prices nearly, if not quite, in two. Now and then we have the chance to secure this reduction for our

public by giving the publishers this guarantee of a large sale. Our latest and greatest undertaking of this sort is in connection with

The International Library

The investment for editing, copyrights, composition, illustrating, plates etc., for this monumental Library was so vast that had the publishers faced the necessity of realizing this from the ordinary sale of so extensive a work, they could not have sold it for less than two or three times the price we made possible by guaranteeing to sell ten times the number they could ordinarily count on selling.

Thus the Wanamaker plan of treating books just like other merchandise has brought this wonderful Library within the means of thousands who could not have bought it.

To distribute the benefits of this, our greatest book purchase, as widely as possible, we sell the Library on small monthly payments to those who join the Wanamaker Library Club, the complete set of 20 big volumes being sent on payment of One Dollar-the membership fee.

Only a comparatively few sets remain, however, and you should act promptly if you want to share in this great book chance. There will be no more at half price when these are gone.

Specimen pages and full particulars sent free. But we advise examin-

A Sale of Men's White Shirts

THE prices placed on the shirts offered this morning are the lowest that we have ever known on goods of equal grade. The event easily surpasses in importance any transaction in Men's Shirts that New York has known in the past decade.

We bought

Sixty Thousand Men's White Shirts to Sell At About Half Their Proper Prices - - -

It comes about through our taking the entire stock of a very large New England factory that got into difficulties, singularly enough, through making its goods too well. So thoroughly and expensively were its productions finished that the margin of profit over the established market prices was not sufficient to maintain the business. The factory closed. Its unsold stock,—all new and fresh,—is ours and yours.

White shirts are never out of style nor out of place. These splendidly constructed garments,—the very sacrifice of which is thus a tribute to the honesty of their manufacture,—are, at their present prices, equally to be

noted as wise investments and astonishing bargains.

Men's Dress Shirts At 35c. each, 3 for \$1—Nicely laundered shirts, with linen bosoms; open front and back and open front only; 14 styles to choose from. A price unheard of before for shirts of this character—they are well worth 60c to 75c. each worth 60c. to 75c. each.

At 50c. each-Laundered shirts for men and boys, in 18 styles, ranging in value from 75c. to \$1 each. At 60c. each-White dress shirts that are [well worth a dollar apiece; and a third of the lot were made to sell at \$1.50. Twelve styles to choose from. A most remarkable bargain.

Men's Unlaundered Shirts At 25c. each-White shirts for men and boys, in 12 styles; some with long, others with short bosoms. Of good muslin, well made throughout. Worth double, or near it. At 35c. each, 3 for \$1-Unlaundered shirts, in 20 styles. These are open back, with long or short bosoms; some open front; some also in boys' sizes; splendid value at

At 45c. each-Unlaundered shirts, 8 styles, with long or short bosoms; some open front and back; worth 75c. to 90c. They are the equal of any unlaundered shirt

An Event in Hosiery

These prices are low. Just how low they are it is difficult to tell you without actually showing the goods. But if confronted with the goods themselves, you would need no telling.

Hosiery is a line of merchandise that enjoys a scale of prices well established, and fluctuations, when they do occur, are confined to narrow limits. Offers like these, therefore, assume much of the importance of phenomena.

Almost all the goods mentioned below were made in Saxony to our express order, and came directly from there to our shelves. That is half the reason for these bargains. The other half lies in the quantities involved, which are probably without precedent in the records of importing by American retailers.

If lowered prices Plenty of Attractions in have power to attract, you will Tailored Suits find that attraction all through the Women's Suit

collection. Where prices remain unchanged, it is because the quality and beauty offered at that price remain unchallenged. And so, with manifest bargains in company with original and unequalled value-for-price, there isn't a suit in the stock that isn't a forceful

attraction. Suits at \$7.50, \$10 and \$15. Original and present leaders in their classes. The \$15 suit is all allk-lined. lined.
Suits at \$13.50 that earlier sold at prices up to \$25.
